I don't know why. Anyone can help please? A: If you are using [RegularExpression(@"^\d{2}\/\d{2}\/\d{4}$", ErrorMessage = "Wrong Date Format")] validation is working only on DateOfBirth. RegularExpression attribute validation is evaluated both on DateOfBirth and DateOfMarriage. The regular expression validates only DateOfBirth. The second regular expression is still evaluated, so you can use the same validation method. Use this code to validate
