One Piece Season 15 - Free Download. Season 15. Credit to play this movie, you need to download team [] Mpeg Codec. Download one piece season 15 watch online | Watch One Piece online free. 17th Episode of One Piece Season 15. The Straw Hats are walking through the forest on their way to the mysterious country of Dressrosa when Luffy gets lost and runs after Nami who is heading there on her own. The Straw Hats are about to meet something new: their first ever female crewmember. Luffy catches up and jumps on Nami's back, insisting that she take him with her, to which she happily agrees. Meanwhile, Zoro is in the forest, while Sanji is at the bottom of the ocean. The Straw Hats soon reach Dressrosa, but the country was already occupied by the royal family of Dressrosa. The Straw Hats are followed by two princesses, who invite them in for tea, as they state that they never saw any human before. The Straw Hats end up falling into their trap, and Luffy is captured by the king while Zoro and Sanji are captured by the princesses' guard. Luffy is imprisoned in the royal dungeons, where he meets his first and last cellmate: the Mr. Devil. Jora and the IYH Pirates are told that they can only meet their princesses if they can defeat Dema (the Devil), the person who can control them. Luffy and the Devil battle, with the Straw Hats joining in. The Straw Hats eventually defeat Dema, but one of them is left unconscious. Jora releases the Straw Hats from prison, and he and the other three pirates announce that they will keep Luffy and the unconscious Straw Hat prisoner until they can go to the town of Zou, whose governor, Portgas D. Miranda (Portgas' father) has promised to help Zoro and Sanji. At night, Nami and Chopper are sleeping in front of the fire when a commotion disturbs them: the door to Nami's cell has been opened, while Sanji is sleeping. When Luffy enters the dungeon, he is surprised to discover that the Mr. Devil has already been released, as well as Bellamy. They tell him that he should have escaped the prison, but he fell asleep. The Straw Hats decide to have some fun with the pirates before they leave, and all five of them leave their prison and go to the room where the other Straw Hats are. Luffy asks them where they got their name from, but they
